WHERE TO BUY

* FAVORITES

Even if the collapsible plywood boxes of NO-NAIL BOXES were designed for industrial packaging, they can be salvaged, recycled or reused in many different ways.

The box is highly resistant and can be reused many times for transporting or storing goods.

At NO-NAIL BOXES, we pay a close attention to the economical aspect of our products. Our collapsible plywood and steel boxes are:

- Light: reduction of the transportation costs
- Delivered dismantled : reduction of the transportation and storage costs
- Easy to assemble and dismantle : time saving
- Custom-made crates from small quantities ordered: no useless waste

Contact us for further information about our collapsible boxes or consult our online catalog.
